## March 2024

### Net tangible asset (NTA) backing per share

NTA per share <sup>1</sup>	\$2.42	\$2.34
NTA per share after unrealised tax provision <sup>2</sup>	\$2.37	\$2.31

### Market commentary

In March, global infrastructure stocks rose +3.4% (in A\$ terms) ahead of broader global equities (up +3.0%). Stronger-than-expected economic data continued to support a rosy outlook for global growth, although inflation remained sticky which saw expectations for interest rate cuts moved out to mid-year.

Pleasingly, Argo Infrastructure's portfolio gained +4.0% to outperform both the benchmark index and Australian shares (up +3.3%).

Amid the robust economic outlook, the more commercially-sensitive infrastructure subsectors again generated the strongest returns and contributed to the portfolio's positive performance. This included our holding in Brazil-based marine port operator Santos Brasil which posted financial results ahead of investor expectations. Looking ahead, the firm remains well-positioned to reap the benefits of an ongoing shortage in container terminal capacity in the region.
